ShawContract®

Visualization Services

From installation methods to visualizing color schemes in a floor plan, to understanding the amount of flooring material needed for an installation, Shaw Contract's complementary **Visualization Services team** is available to create rendering files based on floor plans, design inspirations or sketches you provide.

CUSTOM PATTERNS

CUSTOM ROOM SCENES

2D CONCEPTUAL LAYOUTS

**INSTALLATION GUIDES
(PAINT BY NUMBERS)**

Services Provided

These steps will help you along the way to a personalized and unique flooring installation:

Stage 1: Concept

Stage 2: Visualization

Custom Patterns

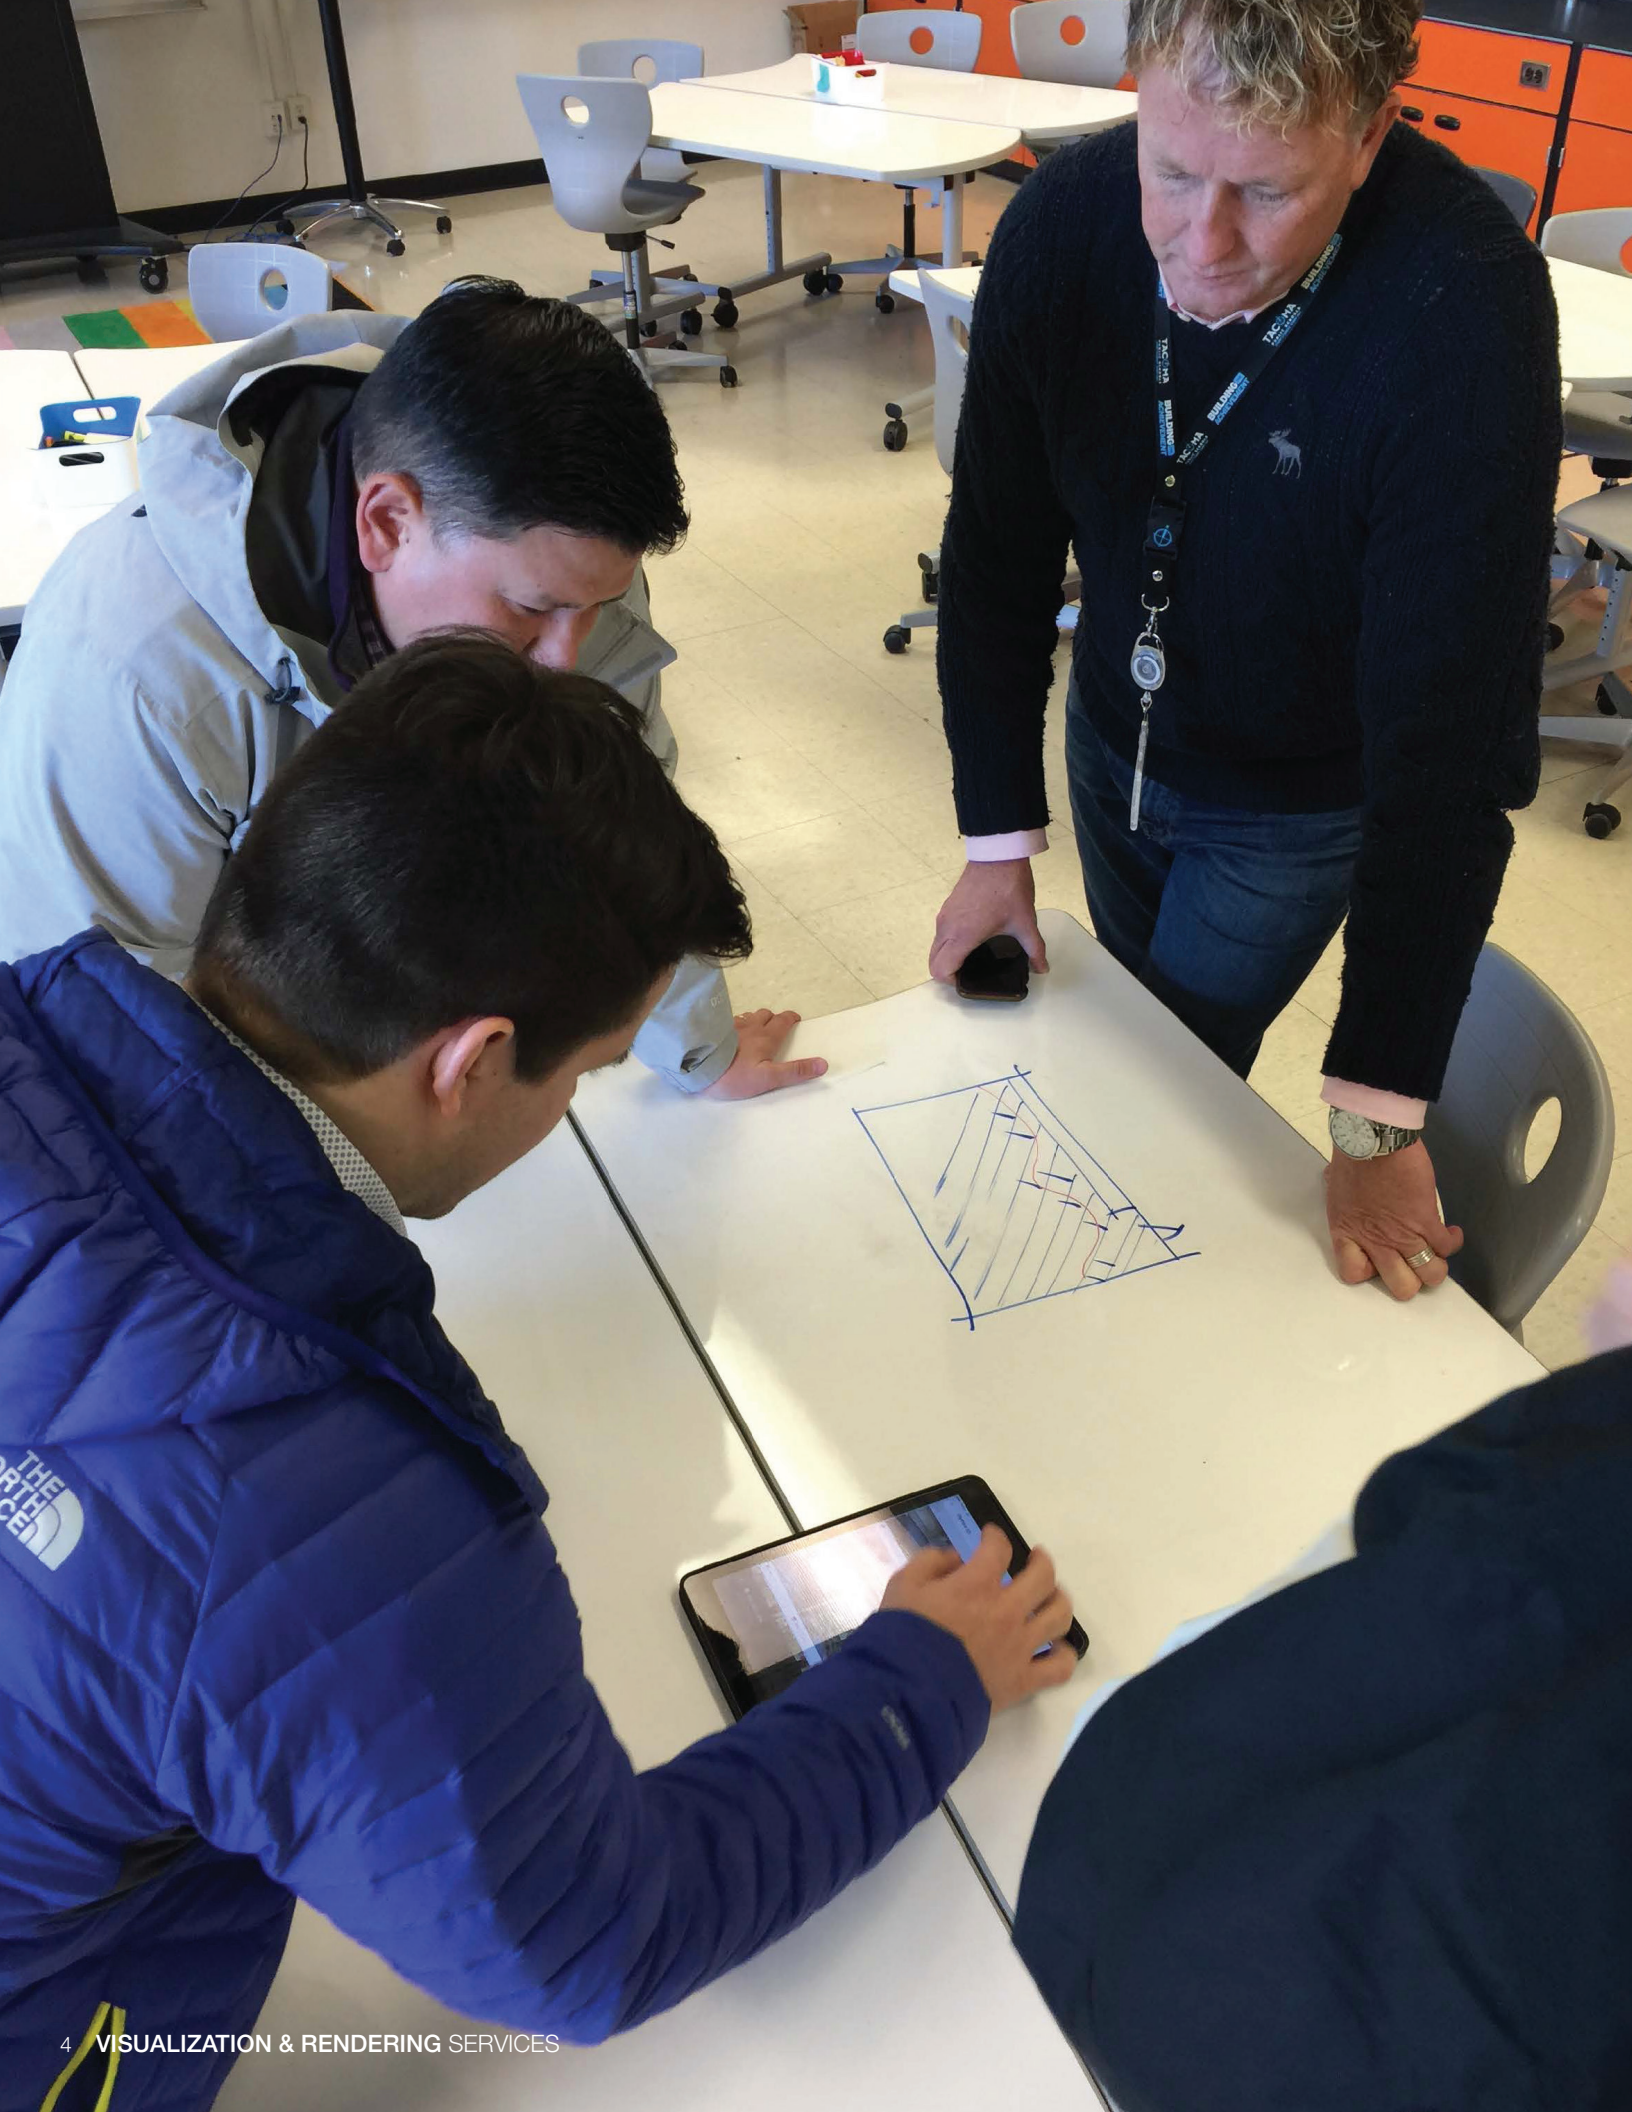

Custom Room Scenes

2D Conceptuals

Stage 3: Estimating / Installation Guides

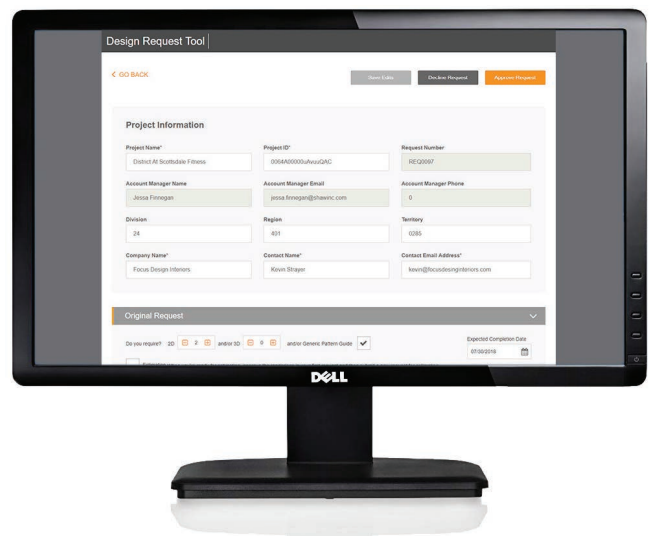

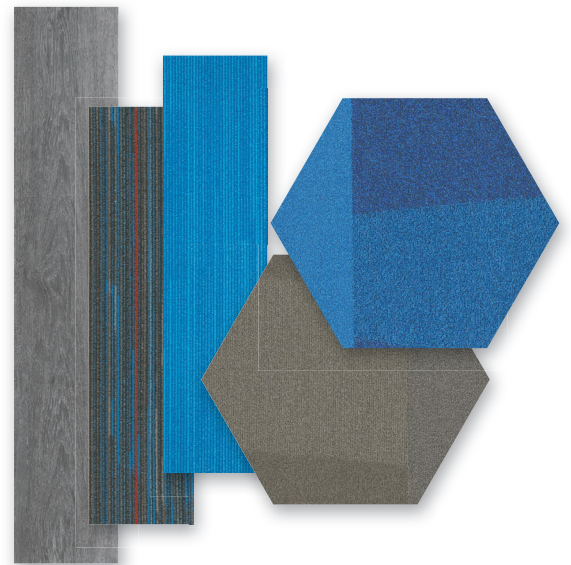

Ordering & Installation

NOTE: Stage 2 Visualization items can be requested individually or as a whole, depending on the project needs.

Stage 1 Concept

Discuss your project and budget with your Account Manager to determine general design and then select styles and colors that work within those parameters. Once selection has been made, your Account Manager will then submit a request to the visualization team.

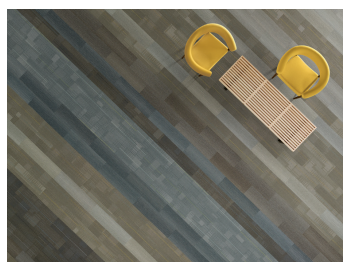

Stage 2

Visualization | Custom Patterns

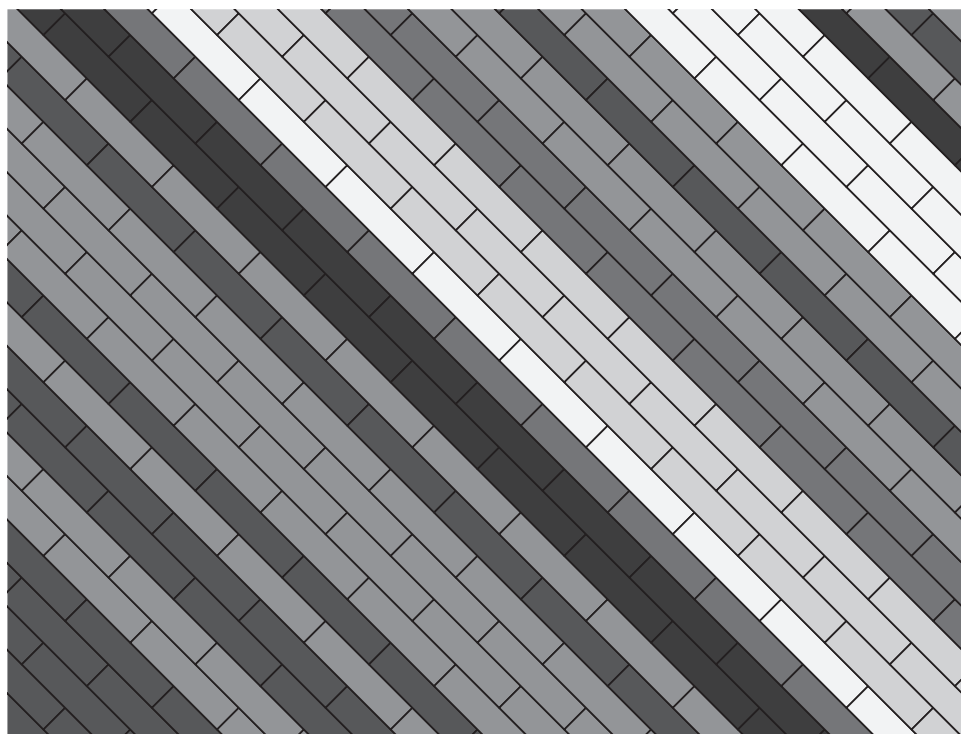

The visualization team will either work with an installation pattern you've selected or you can choose from one of our pre-designed patterns. Patterns can be created using the products shown or with substitutions. Additional design assistance is available by video conference call with a member of our in-house design team. Our designers can assist with pattern design, product choice and color scheme selections.

installation ideas

-  style: city central tile
color: village 72760
-  style: city central tile
color: scenic 72515
-  style: city central tile
color: island 72595
-  style: diffuse tile
color: road trip 75105
-  style: diffuse tile
color: river front 75535
-  style: diffuse tile
color: climate 75765

shaw contract® | For more information, visit shawcontract.com or contact your sales representative.

NOTE: Colors represented may vary based on printer and/or monitor settings; clients should always refer to their physical product samples for exact colors.

before

after

Stage 2

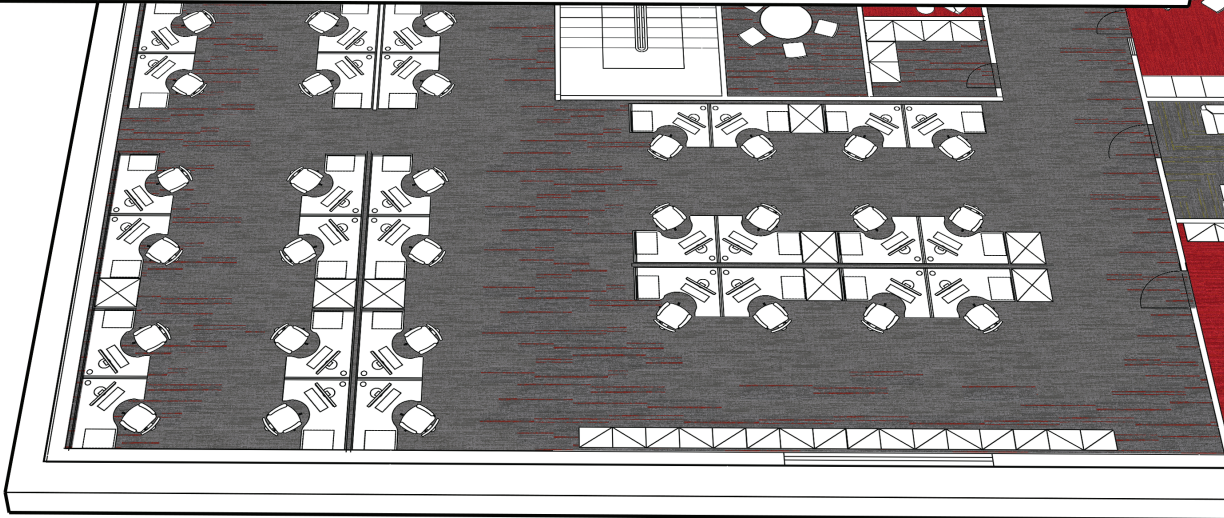

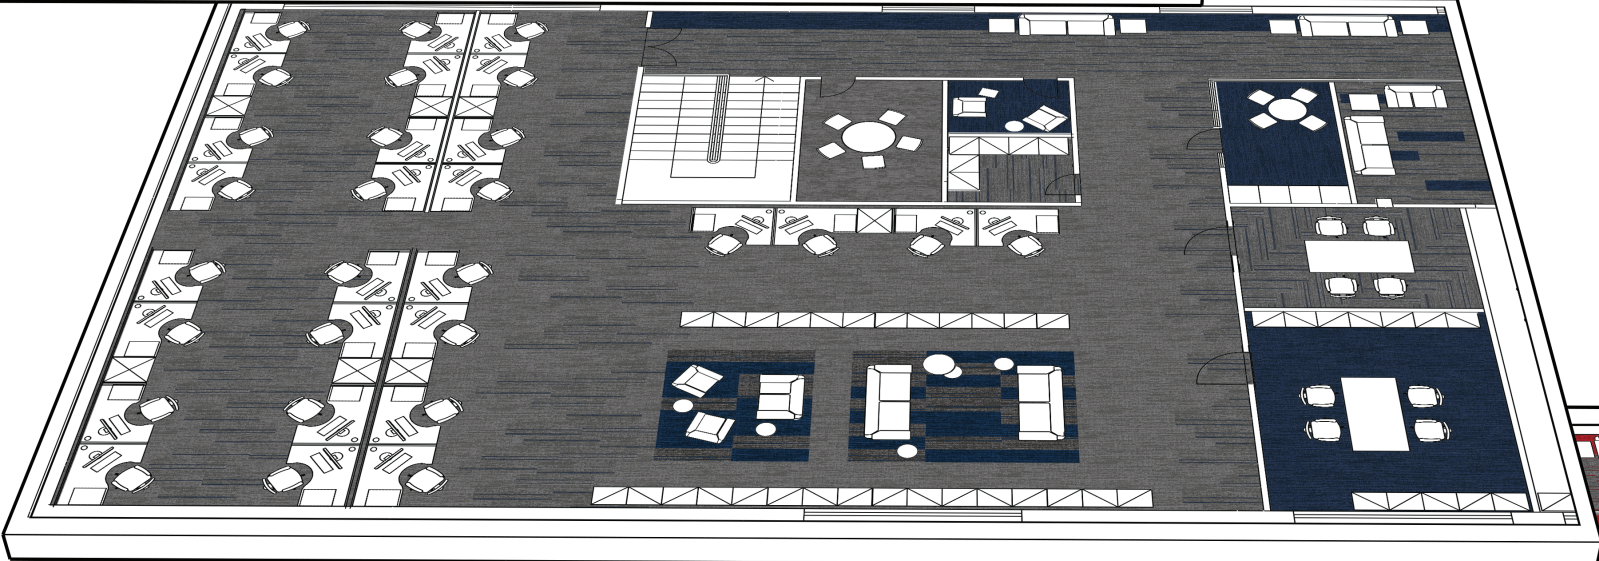

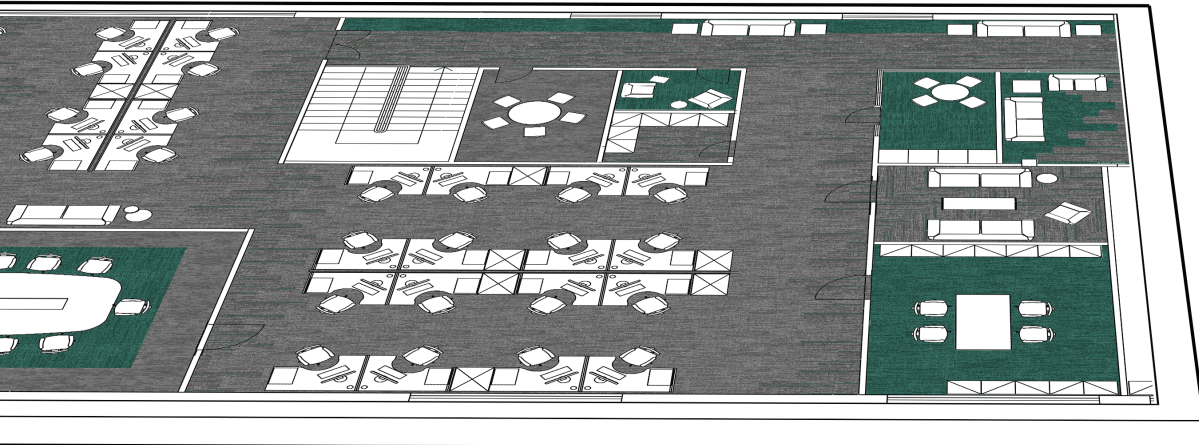

Visualization | Custom Room Scenes

The team will create a custom room scene of the products in either a room scene provided or in one selected from the bank of stock images. The purpose of this process is to help aid the client to see their vision prior to moving onto the next step.

Lead time: 3-5 business days

REQUIREMENTS:

- Product information (style and color)
- Installation method (if one is preferred)
- Image of customer's space or a pre-generated image selected from our library.

Stage 2

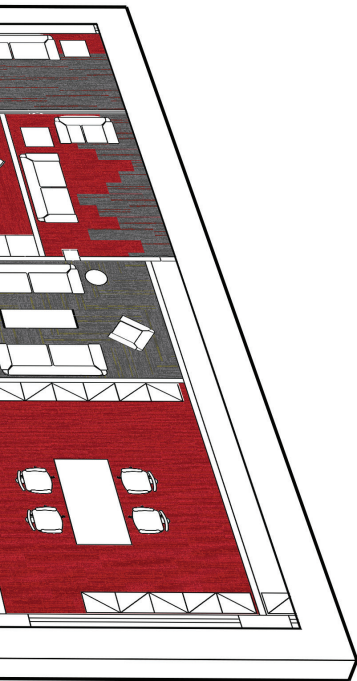

Visualization | 2D Conceptuals

A 2D rendering can be created to show how the products will look in your space (either a specific zone or the entire floor plate). Product placement is tailored to the clients plans and spaces to highlight focal points and create way finding.

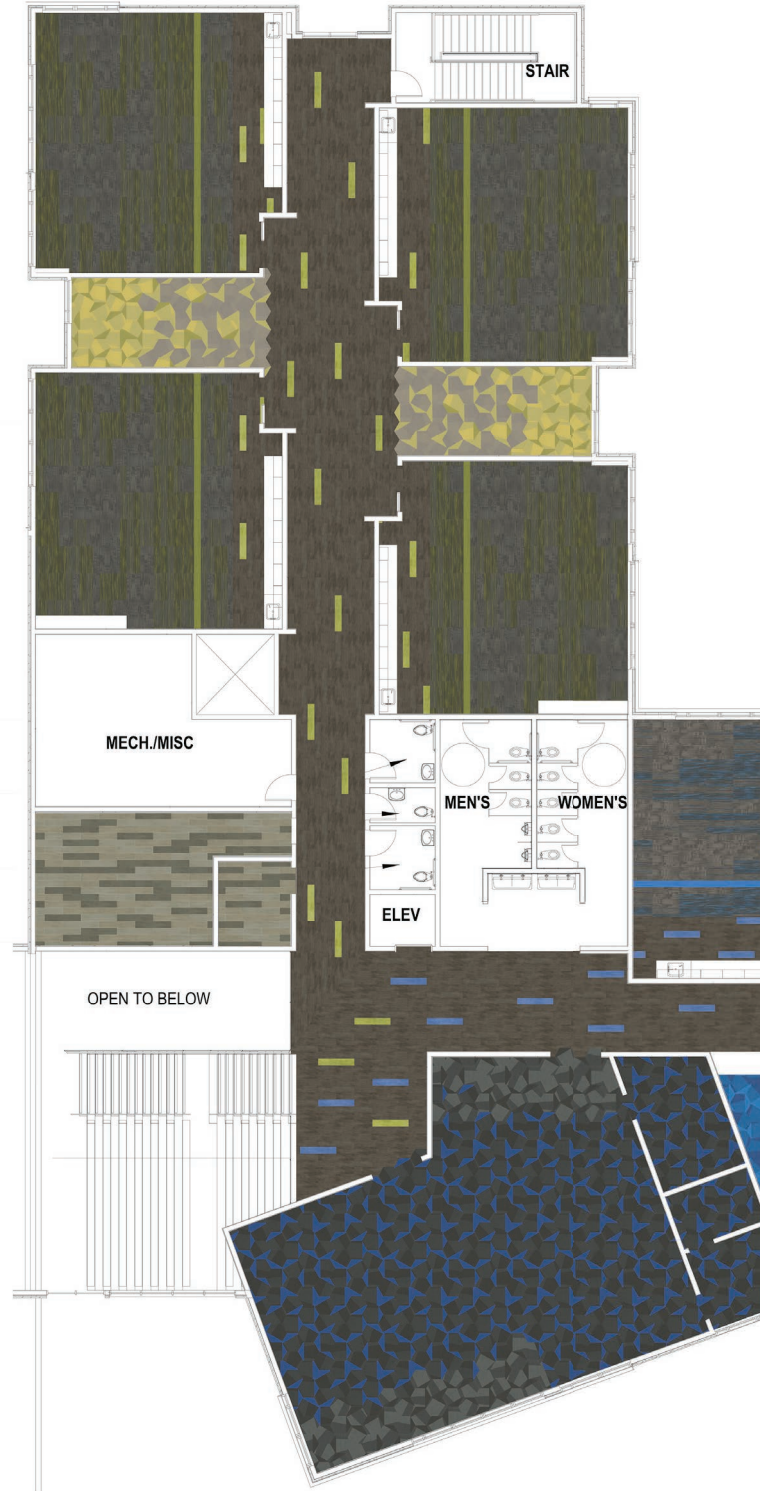

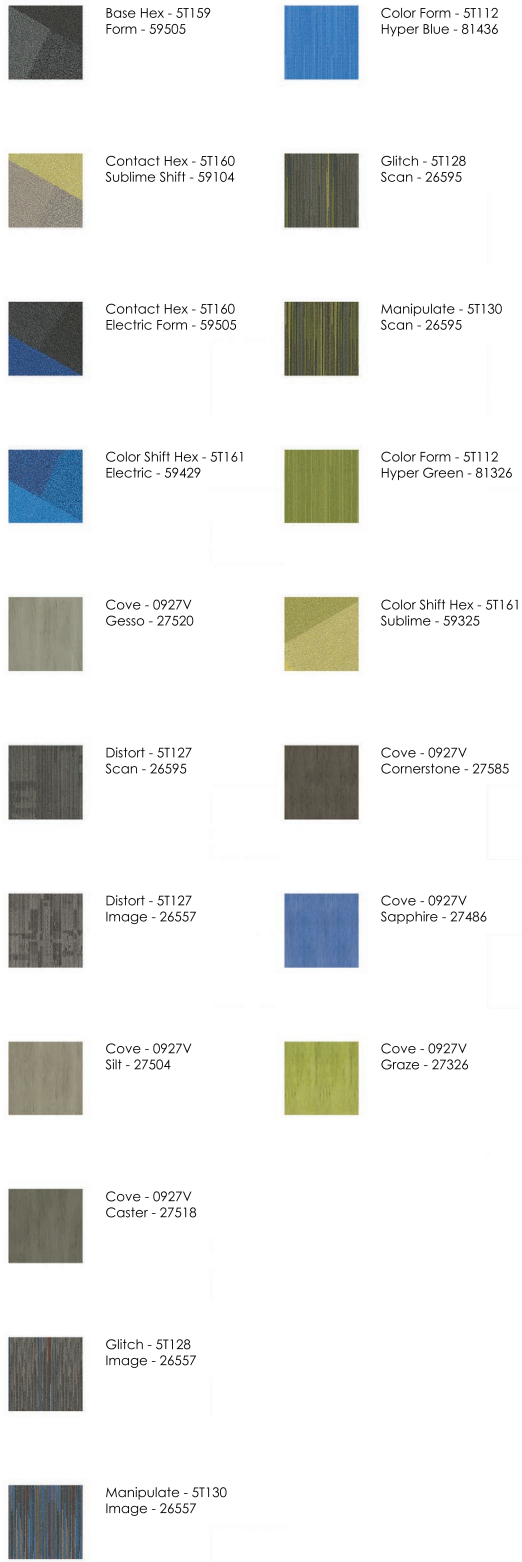

Lead time: 3-5 business days

REQUIREMENTS:

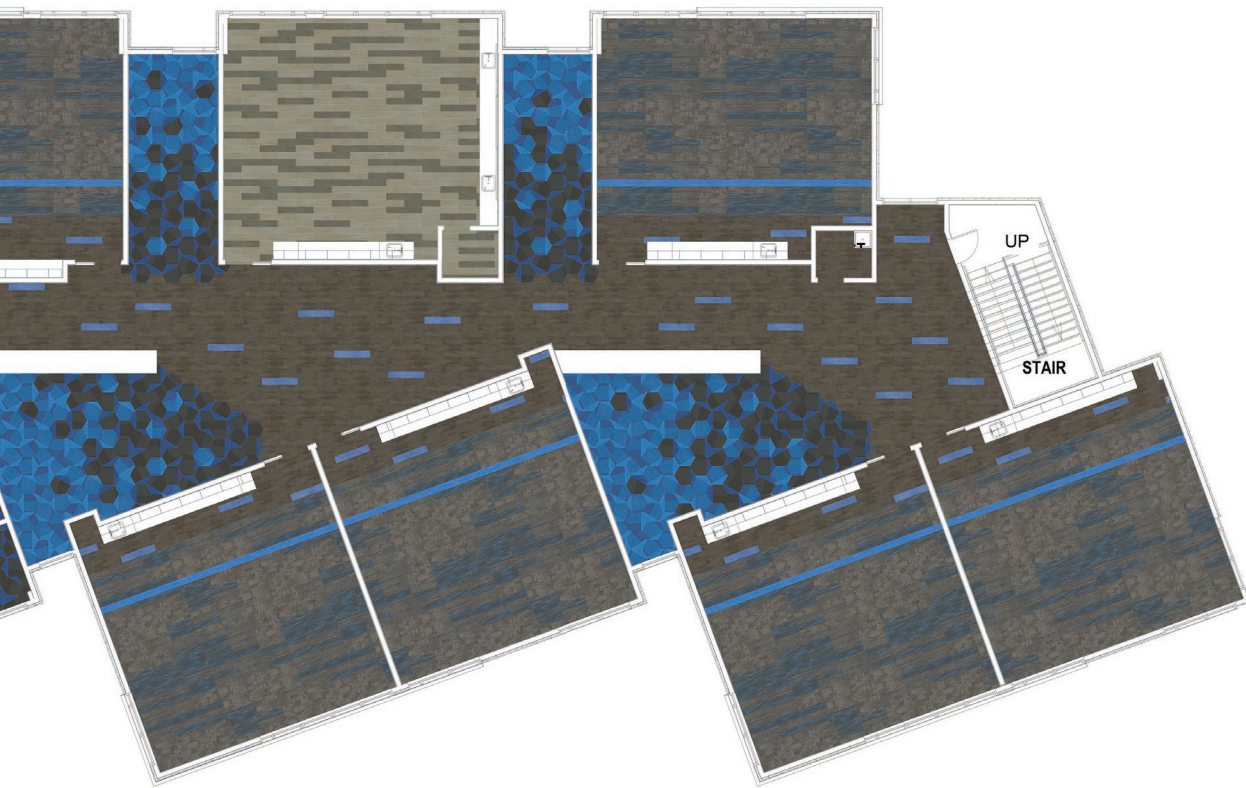

- Complete and most recent AutoCAD, Revit or PDF blueprint of the space
- Identify focal points or specific design intent (meeting rooms, collaborative spaces, etc.)

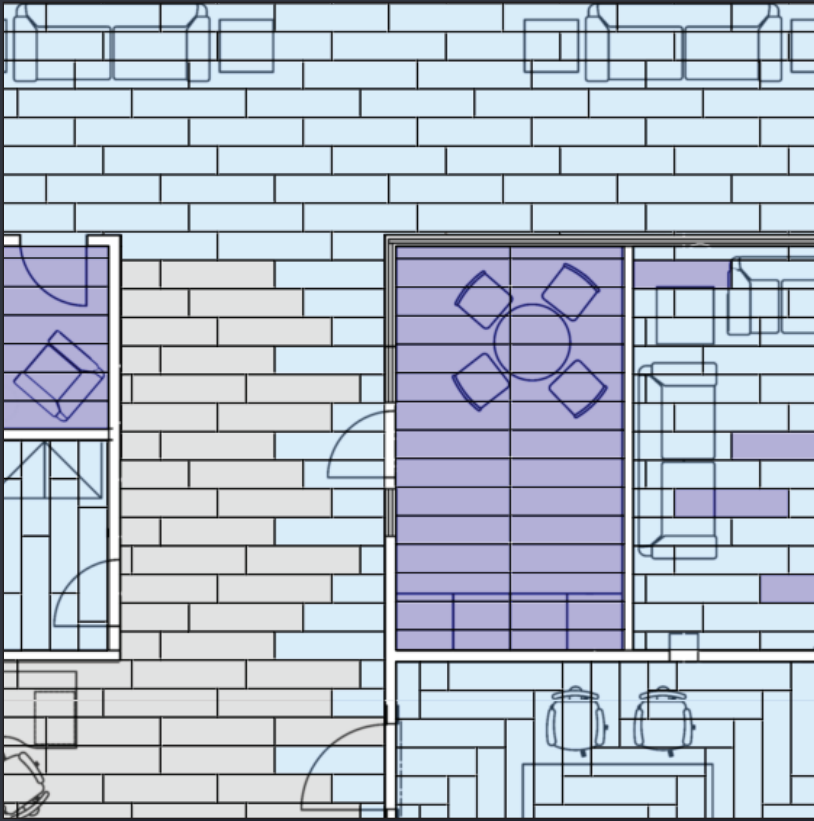

NOTE: Revit & AutoCAD files are only used to generate rendering files from our design software. We DO NOT render directly into Revit or AutoCAD.

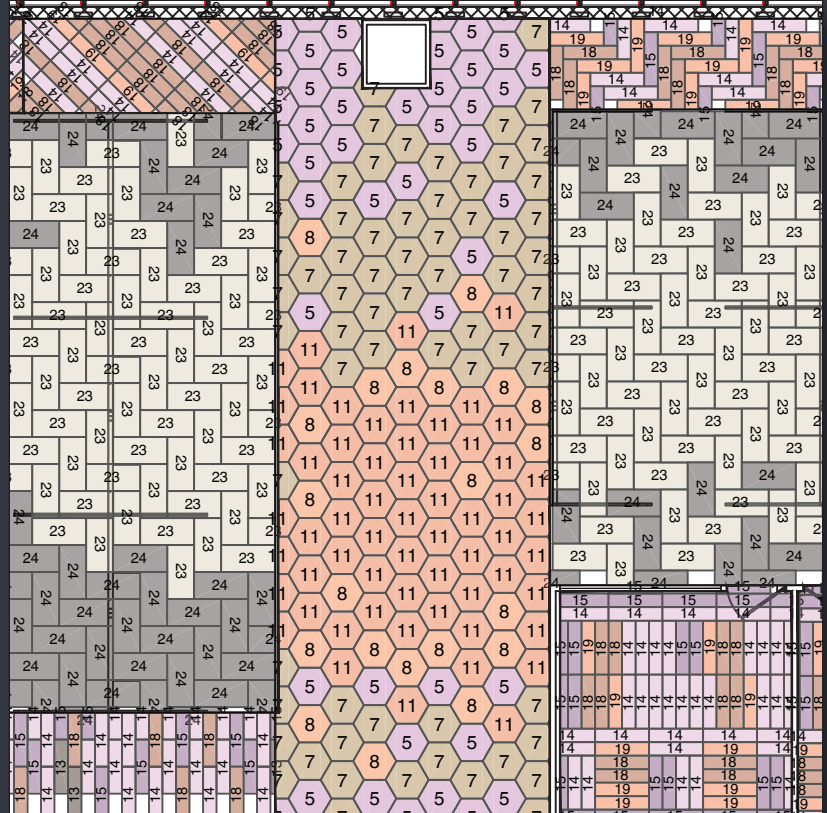

The layout and scale rendered in this floor plan may not be an exact representation of the actual flooring. Please review product samples for accurate color and repeat scale. The rendering provided is only for design purposes and should not be used for ordering, estimating or exact layout details. An estimate must be completed by a professional for accurate ordering and layout information

INSTALLATION GUIDE

PAINT BY NUMBERS GUIDE

Stage 3

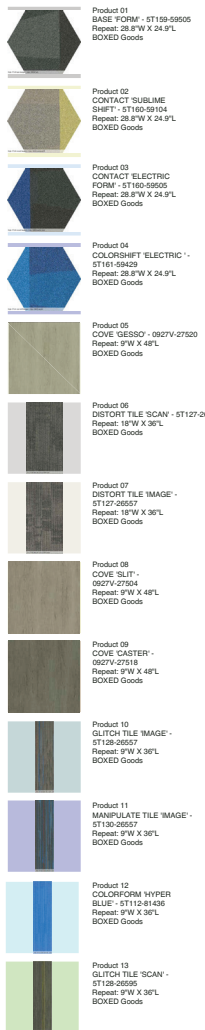

Estimating / Installation Guides

The team puts together an installation guide and estimate that provides a list of quantities needed (this includes sundries or additional stock, if needed).

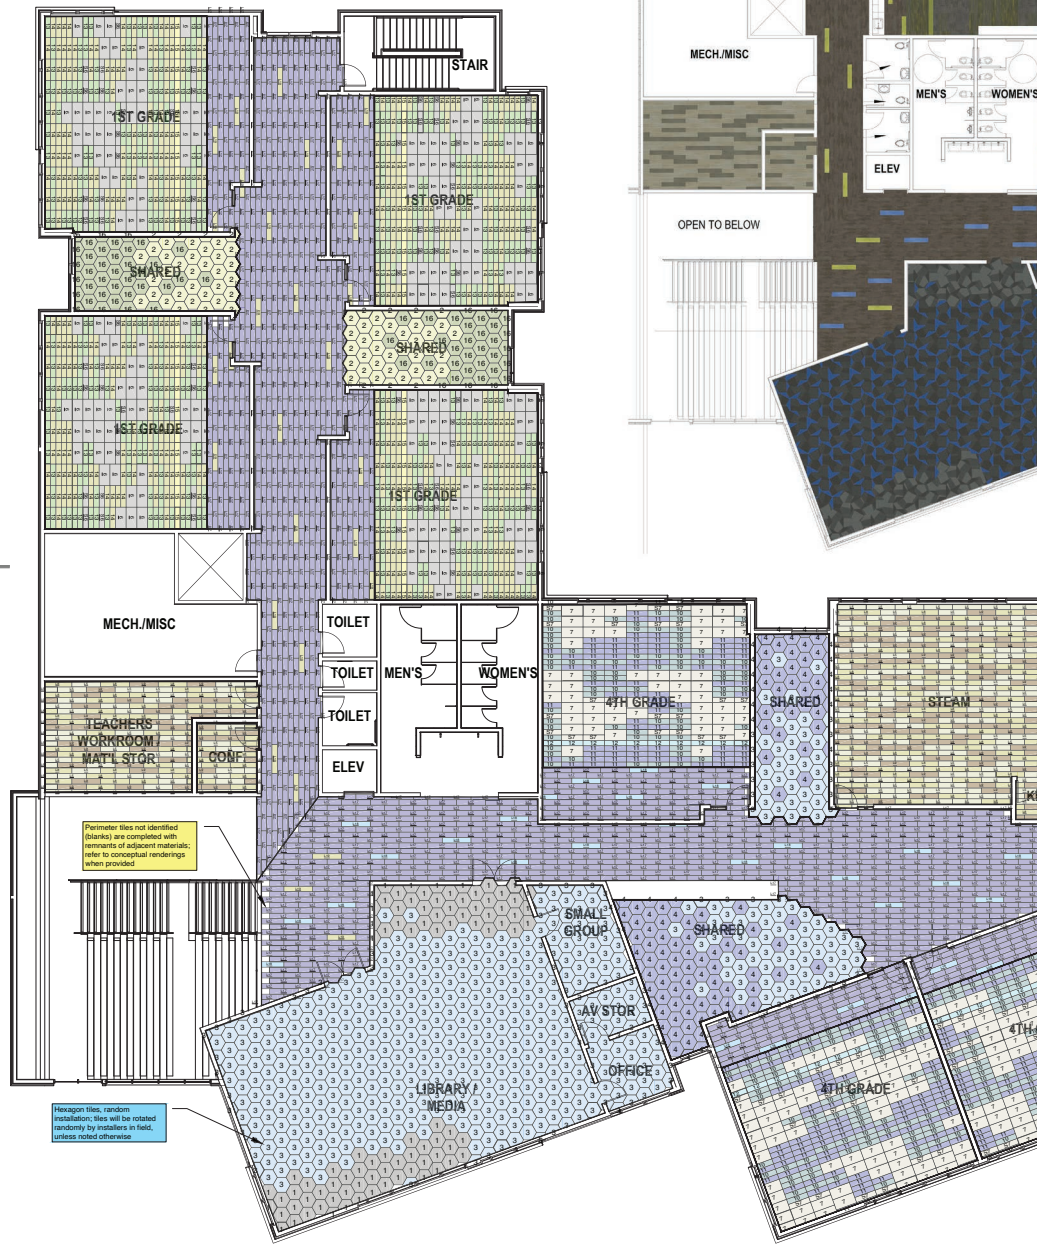

Lead time: 3-5 business days

REQUIREMENTS:

- Client sign off on 2D renderings
- Notify the team of project phasing or attic stock requirements prior to estimation
- Field verification by your local installer is highly recommended

Project Pattern Guide
 The above image(s) do not represent exact color or proportion, and may show portions or multiples of pattern repeats; refer to physical samples for this information.

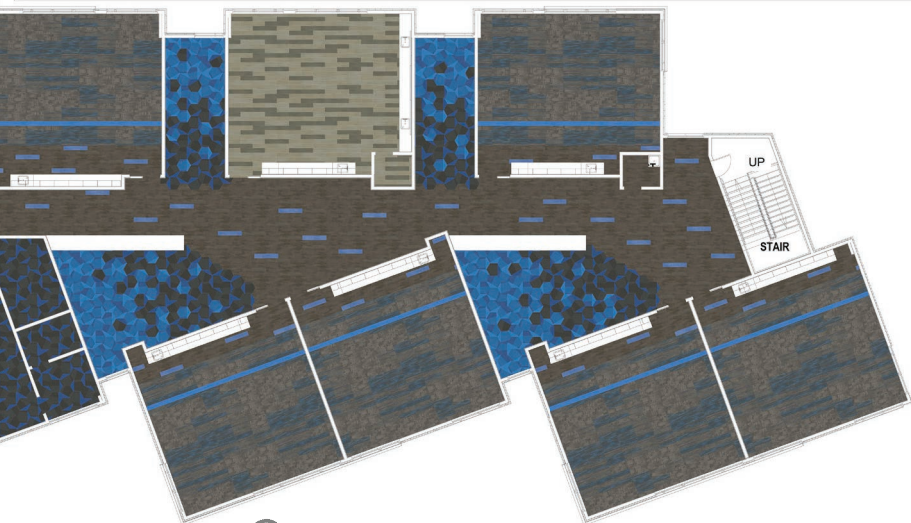

ShawContract®

This drawing and the designs contained therein are the sole property of Shaw Visualization Team. This drawing may not be reproduced or used without written permission from Shaw Visualization Team. Unapproved use will give rise to a claim for damages. This drawing is to show interior design intent only and should not be used for construction purposes. While every attempt has been made to avoid errors in preparing this drawing, Shaw Visualization Team can not guarantee against human error. All contractors and others utilizing this drawing in connection with this project are responsible for verifying all dimensions, yardage quantities, conditions, codes, ordinances, and must immediately report any discrepancies to Shaw Visualization Team.

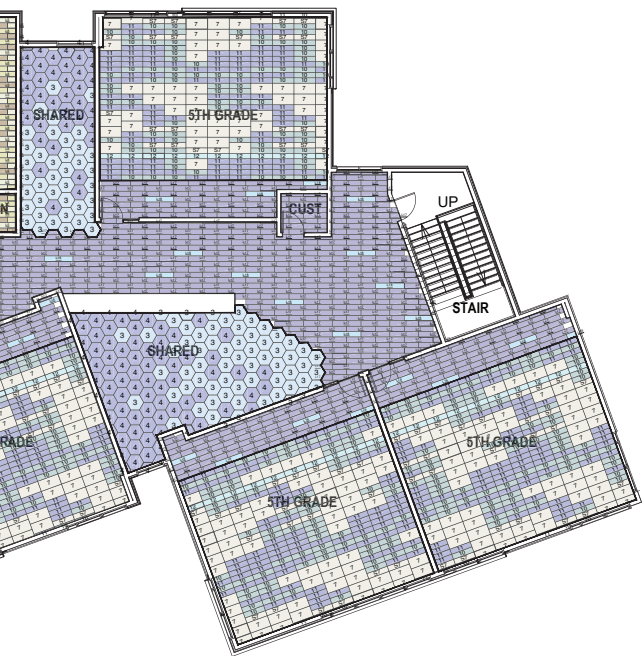

This job was based on information submitted by the customer's firm and/or agent(s). Shaw Visualization Team is not responsible for final yardage requirements. These plans must be field verified by a capset installer for accurate area and final yardage requirements. Dimensions, sizes, amounts, known seams and/or any other information provided on these plans may require on site adjustments due to job site conditions and/or minimal shrinking and/or stretching in the manufacturing processes. Sizes and amounts provided on these plans are not. Additional amounts and/or pattern repeats are included in the quantities provided in Shaw Visualization Team's estimating quote.

Notes & Comments

1 Estimate includes 2 % overage

2 Field conditions may vary from construction drawings/ autocad files, Therefore we cannot guarantee 100% accuracy in our estimates. Field Verification by an installation professional is always recommended prior to issuance of purchase orders.

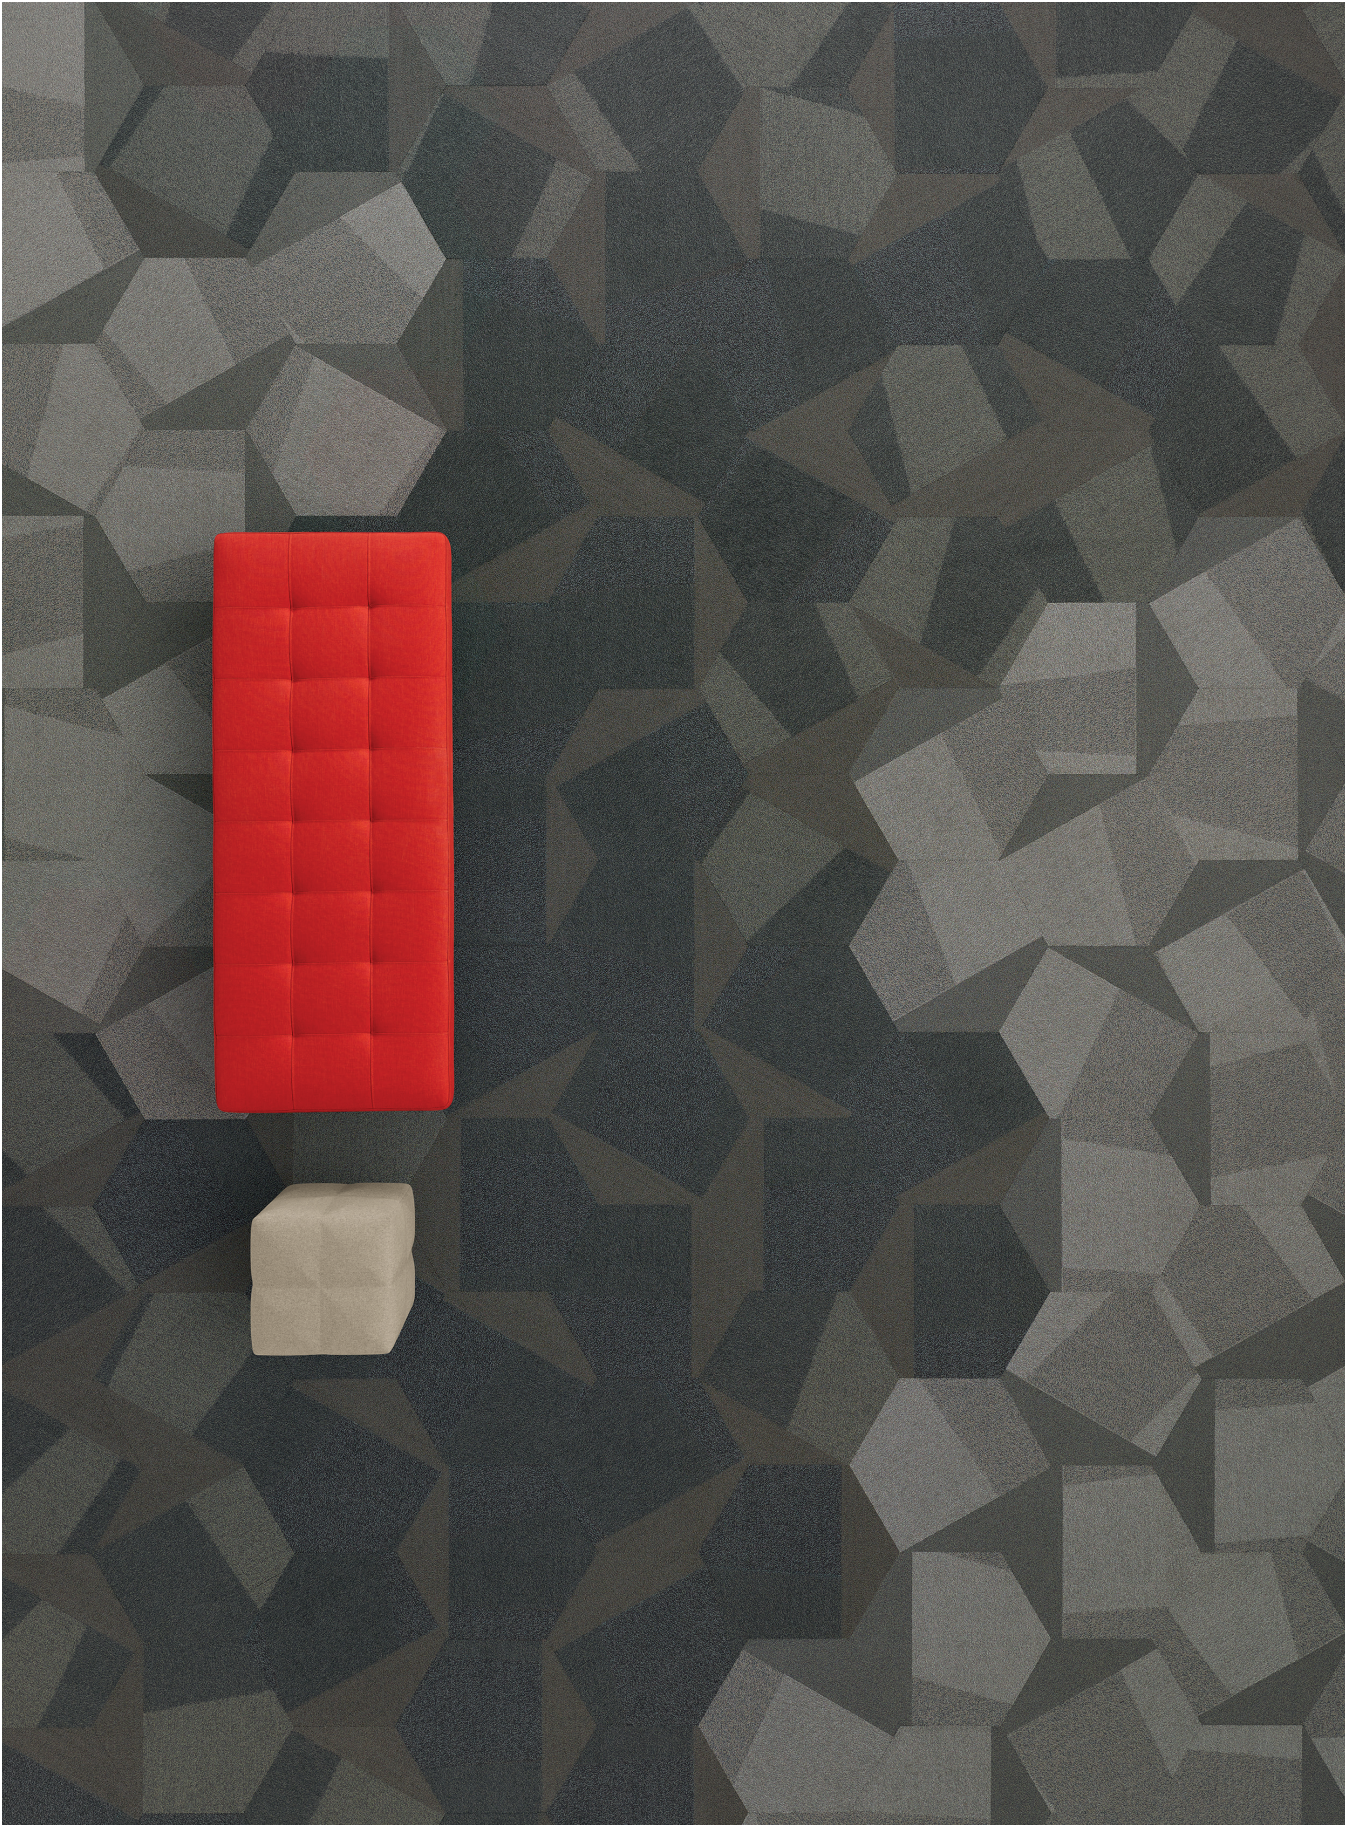

3 Minimum Quantities may apply; please contact your Customer Service Representative for more information.

4 Carpet Tile estimates are based on running line product using Standard Ecoworx backing; all other custom tiles may be in smaller / larger box quantities. Please verify with your customer service representative.

Ordering & Installation

Once the estimate is complete, you can work with your local Account Manager and/or installer for ordering and installation.
